

MARCH 2019

National Chapter Award

The National Chapter Award program recognizes FFA chapters that successfully complete an annual Program of Activities (POA), which includes a series of activities designed to encourage its members to grow as individuals, to work as part of a team and to serve others. The POA is built around three major divisions including: Growing Leaders, Building Communities & Advancing Agriculture. Our officers have been working diligently over the past month preparing the National Chapter Application for this years competition. Each year FFA Chapters from across the state submit applications highlighting the activities that they have conducted throughout the year. There are 308 chapters throughout the State of Ohio; we are excited to announce that our FFA Chapter has been named one of **Ohio's Top 30 Chapters** our chapter will be recognized and receive the **Gold Medal Chapter Award** at the State FFA Convention this year!!

National Ag Day

Peebles High School

We celebrated National Ag. Week at our school by creating Ag. Literacy displays and games for all high school students to participate in during lunch. Our FFA committees planned and executed four days worth of fun during lunches including Ag. Trivia, where students were asked questions about FFA and Agriculture in general where the difficulty level was based off of the numbers 1-3 spun on the trivia wheel; Recycling plastic bins for each number of plastic were also placed around the cafeteria along with a station to create biodegradable corn plastic; the committee with Ag. Career Pathways set up several different activity stations in order to provide other students with Ag related jobs in the workforce; and Ag. Products and By-Products created a matching trivia game where students placed the by-product with the animal/plant they believed the product came from. Great job to all the FFA members that helped out and to all the students who participated!

Advisory Commity Meeting

On Thursday, April 26th, the Peebles FFA chapter hosted its annual Advisory Committee Meeting. This meeting serves as a means to evaluate our current program offerings and to gain insight on other possibilities that may be beneficial to our students. Community members, parents, FFA Alumni members, school administration and school board members were invited to attend; 19 people came to support the program. We are thankful for those community members that took time out of their busy schedules to help our program grow and flourish year after year.

Envirothon

The Envirothon contest is not an actual FFA career development event, but it is an event that directly correlates with a few of our other CDE's and therefore we compete in this contest as well. The purpose of the Envirothon Contest is to stimulate interest and to promote instruction in the areas of aquatics, wildlife management, forestry, and soils as well as to provide recognition for those who have demonstrated skills and competencies as a result of natural resources instruction. The Highland/Brown/Adams County Environthon was on March 28 at Rocky Fork State Park. Our members competed against a total of 11 teams. Members were thankful to the County Soil & Water Employees for putting on this educational event, and taking the time after the contest to educate students more in each area of the competition.
