School Garden

The Peebles FFA Chapter has been working all summer on the new school garden. We hope this will add a healthy alternative and promote students to choose fresh produce, as opposed to canned. Students have enjoyed working in the garden and eating the vegetables. We take pleasure in being able to give products from our garden to the Peebles community members. We have planted many varieties and types of vegetables in our garden this year and will hopefully be able to provide more to the community and to our school. This year the members of the Peebles FFA chapter spent many hours of hard work and dedication on painting the flower bed boxes, building trellises for blackberries and repositioning the rocks in the garden. We also have added a variety of new vegetables and fruits, such as a Blackberries, Blueberries, Strawberries, and Asparagus.
