Beef BBQ

Peebles FFA Members attended and worked the Adams County Junior Fair Beef BBQ on Thursday, September 5th. Our chapter's duties included uncovering the pit and taking the meat out. Members then load the meat onto a truck for transportation to the kitchen, there

it is unwrapped, and sandwiches are prepared. This year thirty-three of our FFA members participated and helped with our responsibilities at the BBQ. We truly appreciate all of the community volunteers that help to make the BBQ successful year after year for our Jr. Fair.

Rags to Riches

This year at Old Timers Day, our FFA Chapter set up a booth and sold products made from the Senior Business Entrepreneurship Project. Many of these products were made from old T-Shirts and

turned into items such as Dog Toys, Lanyards, Key Chains, Bracelets, Dog Beds, and Hot Plates, in addition to these items senior members invested \$100 to purchase other items to sell. In total, the Senior Business Project made a total of \$789 to put towards our National FFA Convention trip.

OTD Parade

This year the Old Timers Day parade was held on Sunday, September 15th. We had 24 members participate in this year's parade. The Old Timers Day parade provides an opportunity for our members to thank our community for their support of our program throughout the year.

Farm Science Review

19/20-2

On Tuesday, September 17th; twenty-one FFA Members attended the Farm Science Review, which is the largest agricultural fair and is located in London, Ohio. Students were exposed to the newest agricultural practices, inventions, and research, as well as, up-to-date information & technologies in agriculture. Students had the opportunity to explore the many possibilities that the agriculture industry has to offer them in future careers.

Ohio Legislative Leadership Conference

We couldn't have asked for a better experience at the Ohio Statehouse or a better tour guide! Representative Brian Baldrige was able to explain policy and lobbying, discuss current agricultural issues and spoke with our members about the importance of being actively engaged in decision making processes.

FFA Fun Night

19/20-2

Every year our chapter looks for new ways to get members involved, and have fun as a chapter. This year we hosted an FFA Fun Night; members were split into teams and we competed in various challenges to earn team points. After enjoying pizza and fellowship, we started the evening off by an escape room challenge. Teams worked together to figure out riddles and clues in order to open the lock box that would earn them 5 FFA points! From there members participated in a spoons tournament, fear factor: food edition, over-under and a water balloon toss. We really

enjoyed the night and bonding experience; we hope to make this an annual event!

!!Chick Quest Hatching!!

They're here! Our chicks we raised in the classroom have finally hatched. We are proud to announce that we are raising 62 chicks, which are growing like weeds. We owe a huge thanks to Jerry & Pam Crum of Crum Farm Supply for donating 50 chicks to our project when our incubators went rogue!! More updates to come!
